**Support from AGGIE Handshake**

Get Hired Remotely – As more employers recruit college students online, Handshake has the tools you need to go from job search to just hired.

Handshake is hosting daily “Ask me Anything” (AMA) virtual sessions with different career center experts—any student can sign up to attend and ask questions about careers, internships, summer plans, interviews, and more. The person answering questions won’t necessarily be from our university, but they will be professionals from other universities who have their own expertise to share.
The AMA sessions will take place every weekday from April 1 - April 17 at 1pm MST. You don’t have to register, just click on this link to join the standing Zoom call every day at 1pm MST. You can also read more about the sessions here.

The team at Career Services is working at full capacity remotely creating virtual events, connecting students with employers, and helping students adjust to their new normal. Please make an appointment with your career coach to have a conversation.

Take care,
